

Worldwide seamless cold chain management

KNFreshChain

Road Perishables

KN FreshChain is a dedicated, end-to-end supply chain solution for Reefer and Perishables shipments. The KN FreshChain product has been developed in conjunction with industry and customers in order to meet the logistical challenges faced within the sector. We acknowledge the availability of fresh and specialty fruits, vegetables, fish, meat and flowers has become common place in markets around the world. Therefore we are committed to make sure your products are transported/stored in the most economic, expeditious, and efficient way possible to markets and customers around the globe.

SEAMLESS TRANSPORTATION OF TEMPERATURE-SENSITIVE PERISHABLE PRODUCTS

Kuehne + Nagel's door to door services naturally start at the very beginning of the cold chain. Your commodities can be source loaded into a refrigerated container at a location of your choosing and then moved by truck to the end customer. In addition, Kuehne + Nagel also can manage the movement of cargoes loaded into refrigerated domestic trailers or boxcars by providing cross-docking operations to and from marine reefer containers without interrupting the cold chain.

TEMPERATURE CONTROLLED PERISHABLE CARGO COMMONLY HANDLED BY KUEHNE + NAGEL INCLUDES

- Confectionery
- Fruit and vegetables
- Prepared foods
- Meat and poultry
- Dairy products
- Fish and seafood
